## Dead Sea: The Lowest Sea in the World - YouTube

The Dead Sea, known in Hebrew as Yam Ha-Melakh (the Sea of Salt) is the lowest point on earth, surrounded by the stunning landscape of the Negev Desert. The shores of the Dead Sea are the lowest point on the surface of the earth, and the saline water of the lake give lead to the name because no fish can survive in the salty waters.

In Hebrew, arabah means “a wasteland” or “barren district.” And the name Eastern Sea originated from the Dead Sea’s position on the eastern boundary of the land of Israel. Only in Genesis 14:3 is the Dead Sea referred to as a location. In all other instances, it is used to designate a border for the land of Israel.

The Dead Sea has the lowest elevation and is the lowest body of water on the surface of Earth. For several decades in the mid-20th century, the standard value given for the surface level of the lake was some 1,300 feet (400 metres) below sea level. Beginning in the 1960s, however, Israel and Jordan began diverting much of the Jordan River's flow and increased the use of the lake's water itself for commercial purposes.
