Emperor of the North Pole is a 1973 American DeLuxe Color film directed by Robert Aldrich, starring Lee Marvin, Ernest Borgnine, and Keith Carradine. It was later re-released on home media (and is more widely known) under the shorter title Emperor of the North, ostensibly chosen by studio executives to avoid being mistaken for a heartwarming holiday story.

The North Pole is a point on the Earth defined by its axis of rotation. The Earth is actually round, and all lines pointing north eventually converge at the North Pole. There isn't actually anything north of the North Pole. If you pass the North Pole in any direction then you are heading towards south actually.

Chatanika's Dan Kaduce claims Summit Quest 300 victory

Doug, Read your North Pole Tenderfoot Book this weekend. Loved it. Your experience trekking to the pole was your set point for inner strength. You've joined a unique and altogether too small of fraternity of those who have pushed or been pushed to their own edge of existence, found the wherewithal to push that edge out in front of themselves into new territory, and live to ponder it.
